SIMPLE PROGRAMMING; SIMPLE ENJOYMENT

Vantage, a group brand of Legrand and a leader in control systems for luxury spaces, offers a robust home automation platform that is proven to delight customers, save time, and make money. Your customers will appreciate the familiar interface of the sleek, on-wall touchscreens and accompanying mobile applications that make our Equinox widget-based system simple to use and update. And you will appreciate how easy the system is to design, order, install, and program; you can feel confident knowing the Vantage home automation system is backed by an industry-leading five year warranty along with superior customer and technical support for certified dealers.

The Vantage sales app will help you tell the Vantage and Equinox story more effectively.

brochure

contemporary

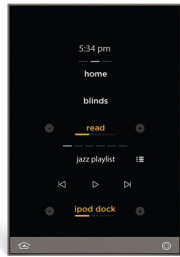

With clean lines and bold metallic finishes, the contemporary design elevates the sophistication of your home. Finish options include titanium and glossy black -- the perfect complement to your forward-looking style. Complete the look with sleek EasyTouch II buttons or continuous glass Equinox 40 for a taste of modern aestheticism.

Equinox 40

looking for something out of the ordinary?

The Absolute Collection from Vantage offers a full line of completely customizable keypads in a European form factor. The range is available in 13 finish options and three button colors. To learn more, please visit www.vantagecontrols.com.

choose your keypad aesthetics

Equinox 40 complements the most dramatic design environments. Continuous glass LCD, two tactile switches, minimal on-wall presence and clean, contemporary aesthetics.

The TrimLine II design offers the most versatility, allowing you to select a trim finish that matches or accents your faceplate finish.

With gently sloping edges that blend into the wall, SoftLine is the perfect choice for a classic design style.

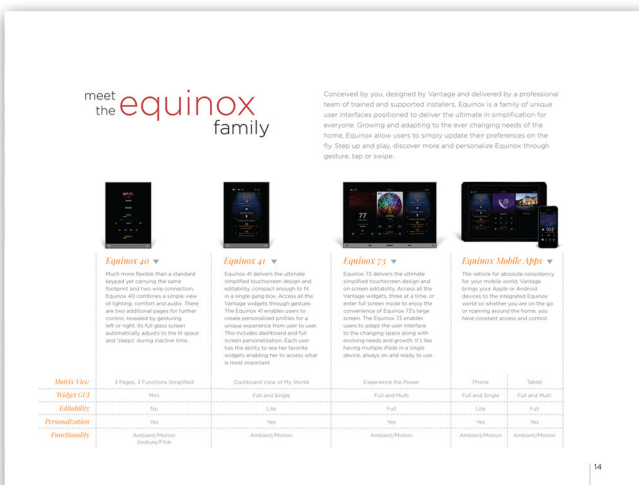

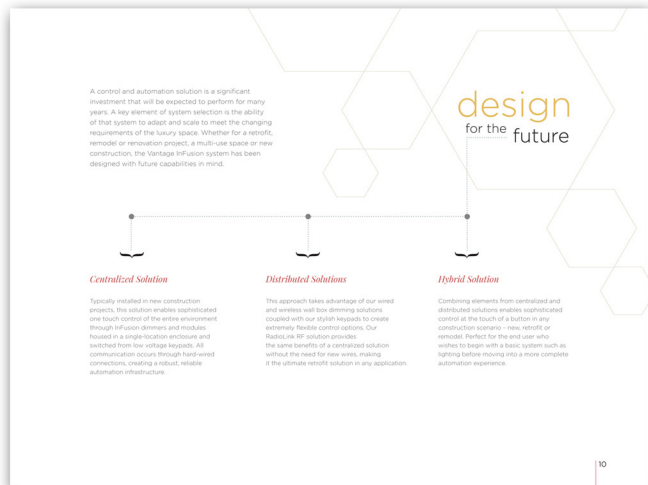

The Align design employs dramatic right-angles and striking lines for a contemporary, polished finish.

designed to be better.™

one company, many products- united by design

Today, home is where we watch, talk, listen, play, work and relax. That's why our residential solutions do more than just add power and communications. They help you deliver a personalized experience of entertainment, connectivity and convenience to the homes of your customers.

Through our commitment to understanding each and every customer, we continue to add value through innovation - making systems smart, reliable and installer friendly.

Middle Atlantic
middleatlantic.com

better system reliability

Middle Atlantic Products has manufactured exceptional support and protection products to mount integrated AV systems since 1979. From thermal considerations and built-in cable management, to pre-installed washers on our rack screws, we build in ways to save time and simplify the job. At the heart of every installation, you'll find Middle Atlantic Products - what great systems are built on.

Racks and Enclosures

Middle Atlantic offers the broadest and deepest range of rack solutions in the industry to meet the needs of any application.

Power

Every great system requires reliable, accessible, safe power distribution. Middle Atlantic power solutions are U.S. engineered and designed to specifically meet the needs of AV applications.

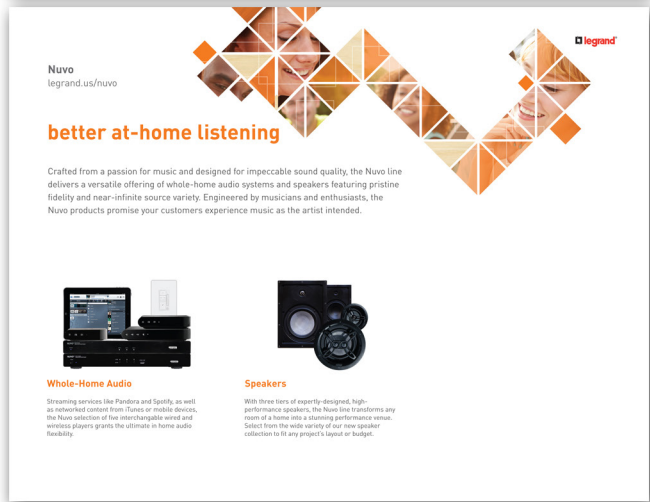

Accessories

Middle Atlantic offers an unmatched variety of accessories such as shelving, cable management and thermal management. Each product is designed to ensure system reliability and longevity.

E-Tools

Middleatlantic.com offers installers online purchasing, product information, order information, and a NEW web-based configuration tool to design great systems.

better at-home listening

Nuvo
legrand.us/nuvo

Crafted from a passion for music and designed for impeccable sound quality, the Nuvo line delivers a versatile offering of whole-home audio systems and speakers featuring pristine fidelity and near-infinite source variety. Engineered by musicians and enthusiasts, the Nuvo products promise your customers experience music as the artist intended.

Whole-Home Audio

Streaming services like Pandora and Spotify, as well as networked content from iTunes or mobile devices, the Nuvo line transforms any room of a home into a stunning performance venue. Select from the wide variety of our new speaker collection to fit any project's layout or budget.

Speakers

With three tiers of expertly-designed, high-performance speakers, the Nuvo line transforms any room of a home into a stunning performance venue. Select from the wide variety of our new speaker collection to fit any project's layout or budget.

On-Q
legrand.com/onq

better connected homes

On-Q provides innovative, practical home technology and structured wiring products, systems, and solutions designed for the 21st century home. Covering categories from networking to automation, the quality On-Q components can be enjoyed individually, or integrated for smarter, better connected homes.

Structured Wiring and Networking

From easy-to-install enclosures to connectivity and productivity tools, our proven, practical solutions provide quality foundations for any project.

Security Cameras

With high-res imaging - even in total darkness - the On-Q cameras offer true peace of mind with mobile control and viewing, email notifications, and motion-sensored recording.

Audio

High-definition, high-fidelity - On-Q AV solutions deliver crystal clear sound and support perfect pictures, through products and systems designed for versatility and ease.

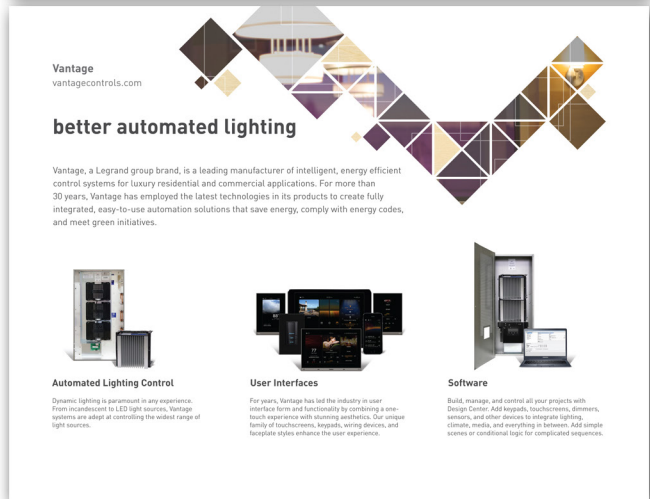

Intercom and Video Door Entry

Providing room-to-room contact and the ability to answer the door from anywhere, On-Q products allow easy-to-access communication throughout a home.

Home Automation and Lighting Control

For complete control with easy-to-use interfaces, On-Q solutions provide standalone management of lighting, or whole-house integration for high performance audio, lighting, security, and more.

better automated lighting

Vantage
vantagecontrols.com

Vantage, a Legrand group brand, is a leading manufacturer of intelligent, energy efficient control systems for luxury residential and commercial applications. For more than 30 years, Vantage has employed the latest technologies in its products to create fully integrated, easy-to-use automation solutions that save energy, comply with energy codes, and meet green initiatives.

Automated Lighting Control

Dynamic lighting is paramount in any experience. From incandescent to LED light sources, Vantage systems are adept at controlling the widest range of light sources.

User Interfaces

For years, Vantage has led the industry in user interface form and functionality by combining a one-touch experience with stunning aesthetics. Our unique family of touchscreens, keypads, wiring devices, and faceplate styles enhance the user experience.

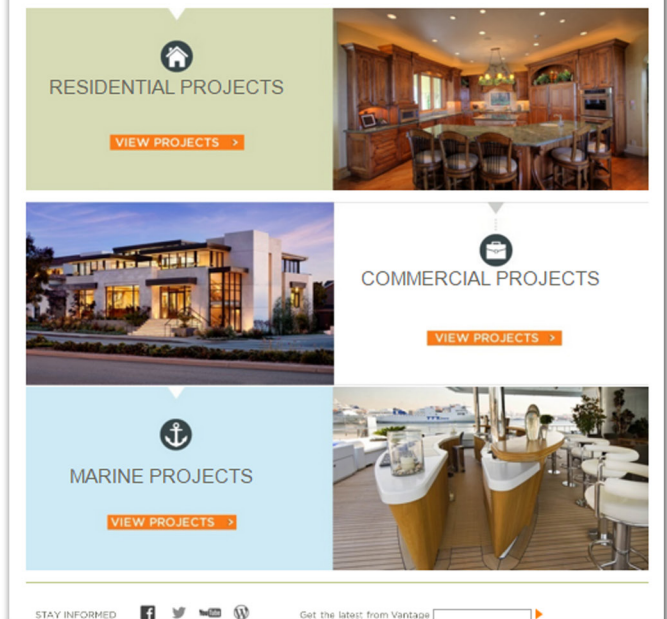

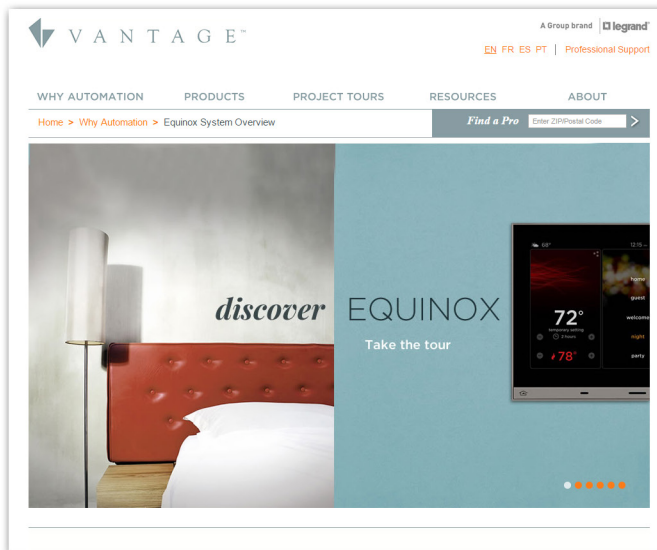

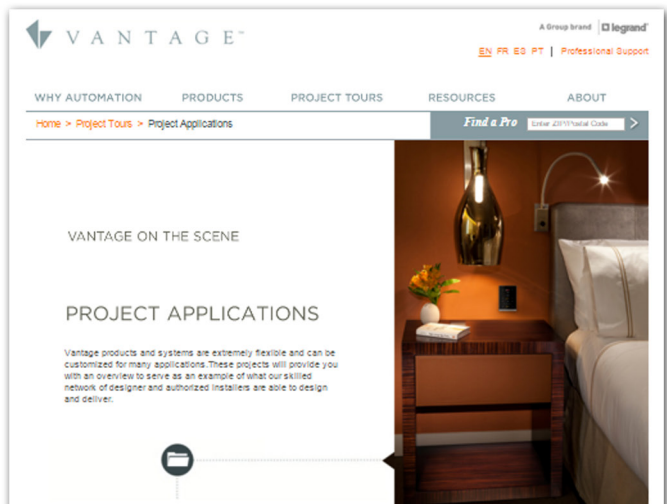

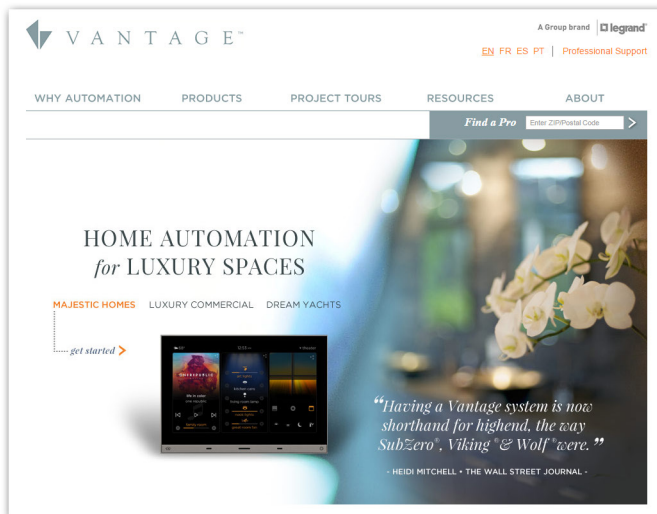

Software

Build, manage, and control all your projects with Design Center. Add keypad, touchscreens, dimmers, sensors, and other devices to integrate lighting, climate, media, and everything in between. Add simple scenes or conditional logic for complicated sequences.
